**REQUEST FOR CORRECTED
FILING RECEIPT**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicants respectfully request that the Filing Receipt of the subject application be corrected to acknowledge the actual filing date of July 21, 2003.

On October 24, 2003, the U.S. Patent Office (USPTO) mailed a *Notice of Omitted Items in a Nonprovisional Application* (hereinafter *Notice*), for the subject case. That Notice indicated that Fig. 11 described in the specification had not been received by the USPTO with the subject filing. The *Notice* presented Applicants with three options:

- I. "Should Applicant contend that the above-noted omitted item was in fact deposited. . ."
- II. "Should Applicant desire to supply the omitted item and accept the date such omitted item was filed in the USPTO as the filing date. . ."

III. "The failure to file a Petition (and petition fee) under above options I) or II), within **TWO MONTHS** of the date of this Notice . . . will be treated as constructive acceptance by the Applicant of the application as deposited in the USPTO."

Applicants did not file a petition or petition fee under options I) or II) of the Notice, and instead filed a Preliminary Amendment. The Preliminary Amendment noted, under the heading *Response to the Notice of Omitted Item in a Nonprovisional Application*, that "Applicants elect option III) of the *Notice* mailed on October 24, 2003 for the subject application." Hence, Applicants explicitly accepted the application (with its original filing date of July 21, 2003) as the application was received by the USPTO. Fortunately, purportedly omitted Fig. 11 of the application as received by the USPTO was the same as Fig. 11 from the parent application 09/872,750, of which the present application is a divisional. Hence, the Preliminary Amendment also added Fig. 11 from the parent application, which had been incorporated by reference into the subject application on page 1, lines 6-8. Therefore, Applicants accepted the application as it was filed in July, and the application as filed effectively included all the desired subject matter.

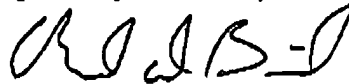

Despite expressly electing option III) and also constructively electing option III) (through not filing the petition under options I) or II)), Applicants have received an *Updated Filing Receipt* mailed from the USPTO on December 10, 2003, a copy of which is attached. The *Updated Filing Receipt* indicates that the filing date for the subject application was November 10, 2003. As this is contrary to Applicant's election of option III) from the *Notice* and as the originally filed application effectively included all the desired subject, Applicants respectfully request that the enclosed filing receipt be corrected to reflect the actual filing date of July 21, 2003.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

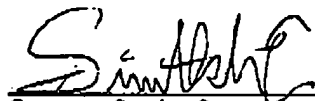

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

omitted drawing(s), relabel the drawing figures to be numbered consecutively (if necessary), and correct the references in the specification to the drawing figures to correspond with any relabeled drawing figures, is required. A copy of the drawing figures showing the proposed changes in red ink should accompany with any drawing changes. Such amendment and/or correction to the drawing figures, if necessary, should be by way of preliminary amendment submitted prior to the first Office action to avoid delays in the prosecution of the application.
